Education

JNTUH College of Engineering Sultanpur
Bachelor of Technology in Computer Science and Engineering

November 2020 – June 2024
Sangareddy(Dist.), Telangana

Technical Skills

Proficient Languages: JavaScript, HTML5, CSS3

Familiar Languages: Typescript, Python, Java, C/C++

Operating Systems: Windows, Linux

Developer Tools: VS Code, Cursor

Frontend Technologies: Next.js, React.js, Tailwind CSS, Shadcn UI

Animation Libraries: Motion (Motion Framer)

Backend Technologies: Node.js, Express.js, FastAPI

Databases: MongoDB, PostgreSQL + PrismaORM, MySQL

Version Control: Git, GitHub

DevOps: Docker

Projects

Shortly | *Next.js, TailwindCSS, Shadcn UI, Neon(PostgreSQL), Neon Auth, Prisma ORM* **Nov 19th 2025 - Nov 29th 2025**

- Built a highly responsive and dynamic URL shortener application with secure OAuth authentication, advanced filtering, search, and full CRUD operations for managing short links.
- Developed an intuitive dashboard with detailed analytics, including click insights, location tracking, and per-link information page for complete link management. [View Project](#) [Github link](#)

Social AI | *React.js, TypeScript, TailwindCSS, Node.js, Express.js, MongoDB* **November 1th - 10th 2025**

- Built an AI-powered social media management platform that enables users to create AI-generated posts, publish content, and view post analytics for LinkedIn and Twitter (X) from a unified dashboard.
- Integrated Gemini API with an AI chat interface for content generation and OAuth 2.0 for secure social account connections, enabling one-click posting to respective platforms with JWT-based authentication.

Blogging website | *Next.js, Shadcn UI, TailwindCSS, NextAuth* **July 1st - July 20th 2025**

- Built a responsive and dynamic blogging web application with a clean, user-friendly editor that allows users to create, update, delete, and share blogs on any topic.
- The platform includes secure authentication using NextAuth with providers like Google and GitHub, personalized user profiles to showcase published blogs, real-time search functionality for easy content discovery, and a “clap” feature to engage and appreciate blog posts. Tech Vibe | *React.js, TailwindCSS, Node.js, Express.js, MongoDB, Firebase, AWS* **April 2025 - June 2025**

- Developed a short-video web app for tech content featuring vertical scrolling UI, user profiles, comments, likes/dislikes, share functionality and follow system.
- Integrated Firebase Auth (Google & email link sign-in), Amazon S3 for media storage, and share functionality for seamless discovery and user engagement. [View Project](#) [Github link](#)

Personal Portfolio Website | *React.js, Tailwind CSS, Framer Motion* **March 2025 - March 2025**

- Built a clean, responsive portfolio with smooth animations to introduce myself and showcase skills.
- Includes About, Projects, Skills, and Contact sections with intuitive navigation and modern UI.
